

Excellence is our key to quality.

Manufacturer of Cotton, Polyester Shirting
Suiting & Sheeting Fabrics

About Us :

Totala Textiles was started by our Chairman Shri. Ramjeevan Totala in 1991. The Group is one of the most respected business house in the Manchester City of Maharashtra and has contributed immensely to the growth of Ichalkaranji and India. At TTPL we leverage our rich multi decade sectoral experience and market understanding to grow our fabric manufacturing business in domestic and export markets.

Message from Chairman

Ramjeevan Totala

The global economic and fashion trends always throw up fresh challenges for the textile industry. India's textiles industry is favourably positioned to seize the opportunity offered by the changing competitive landscape. At Totala Textiles we are excited about the opportunity that regional and global markets present. We believe that organization with a definitive technological advantage and scale are best positioned to address the increasing demand from newer markets. We have hence focused our strategy on product innovation, capacity leadership and attaining cost efficiencies

At Totala Textiles we proactively invested in upgrading technologies to keep pace with changing preference for fabric construction. We are developing newer blends of fabrics in sync with evolving design trends. The result is that we are now a one stop fabric solution provider servicing varied customer needs. We have continued to invest in enhancing our capacity

to ensure leadership amongst competition and also lend the ability to meet customer requirements with faster response and versatility of product range. Our endeavour has always been to bring in best-in-class technologies, available globally. This has helped us improve our product quality and attain higher productivity. Besides, our plant efficiency levels have climbed significantly. We are continuously producing at efficiency levels, at par with global best standards. This has been achieved due to streamlined processes, utilisation of latest machineries and an efficient workforce. Our long-term focus on product development and manufacturing efficiencies provides a competitive advantage, and places us uniquely for the next level of growth and development.

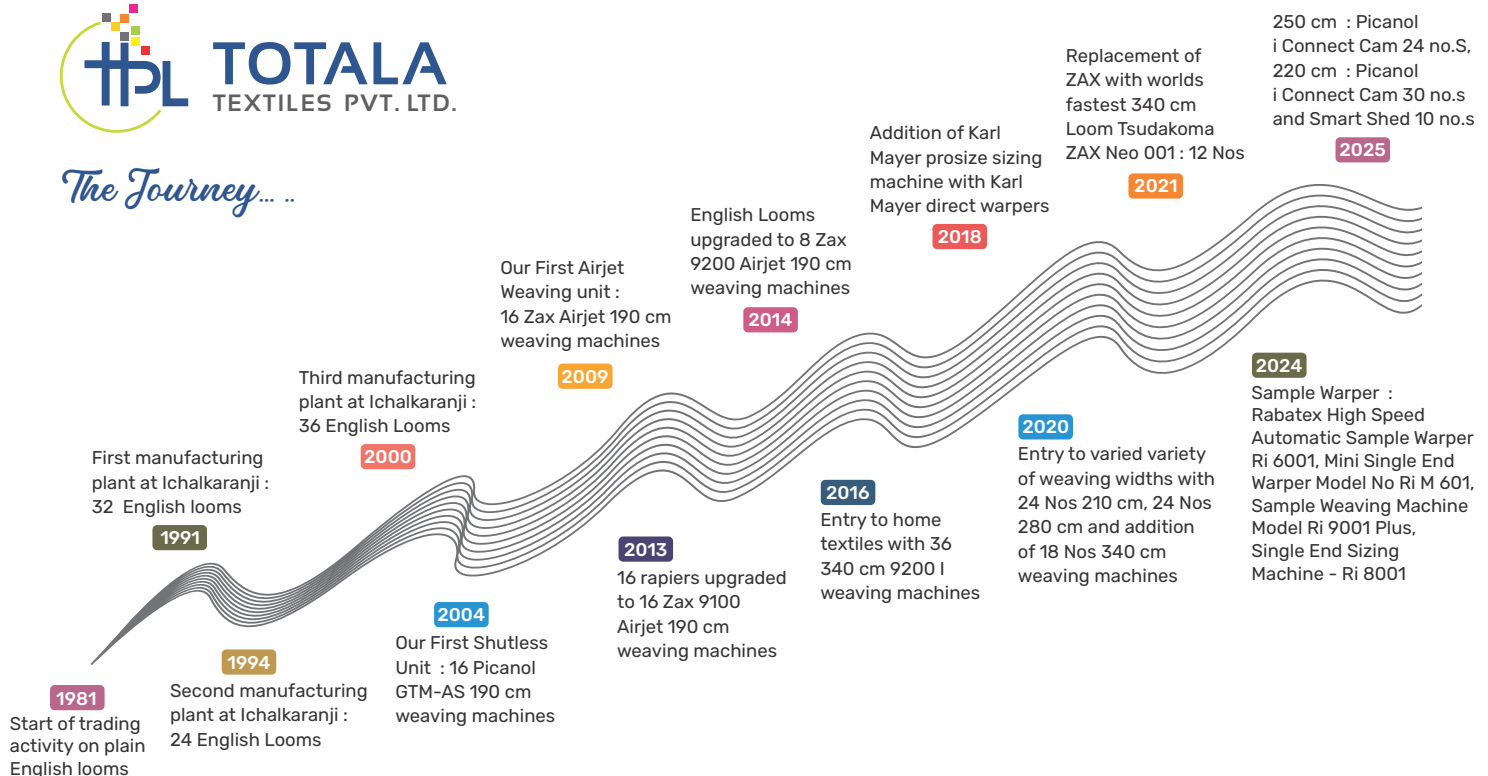

BUSINESS AT A GLANCE

We are a leading manufacturer of value-added and speciality fabric in India. Since inception, we started with small manufacturing capacity and now are the leaders in inhouse weaving capacity in the Manchester city . We have dedicated ourselves to making superior fabrics that have set industry benchmarks for innovation. As part of product development, our company works with leading international and domestic brands to develop a range of fabrics in line with emerging design trends. Leveraging upon our understanding of the textile industry we entered the home textile segment in 2016.

With our Current Capacity of 3 million mtrs per month we are able to achieve a group turnover of 300 crore.

The Journey... ..

Team :

We are a team of 300 persons working for the Growth of TTPL and INDIA. We are being lead by Shri Ramjeevan Totala who looks after the Overall Business and evaluates the growth opportunities. Mr. Mukesh Totala, who looks after marketing of the Fabrics and development of new products. Mr Yogesh Totala, who looks after the finance department and legal Compliance part. Mr Shailesh Totala, who looks after all the production and smooth working of all our manufacturing facilities.

We specialize in Converting variety of speciality yarns to fabrics there by maximising value for our clients and in turn, becoming their preferred partner. **OUR MISSION** we believe that with time, we must constantly evolve as each accomplishment marks a new beginning, an inspiration to focus on 'the possibilities of tomorrow'.

As an Organization, We Strive :

- To excel in our core areas of competence through consistent innovation.
- To strengthen production efficiency through innovation and the use of latest technology.
- To uphold and nurture the core values of transparency, accountability, empowerment, and good governance.
- To consistently reduce our environment footprint.
- To create consistent value for stakeholders by staying strong to our commitments.

Weaving Machinery at TTPL

- 190 cm** : Tsudokama ZAX 9100/9200 : CAM and Dobby 4 Colour with Name writer Jacquard Selvdege : 24 no.s
- 210 cm** : Toyota 810 : Eshed with Name writer Jacquard Selvdege (8 & 14 shafts) 24 no.s
- 220 cm** : Picanol i Connect Cam 30 no.s and Smart Shed 10 no.s
- 250 cm** : Picanol i Connect Cam 24 no.s
- 280 cm** : Toyota 810 : Eshed (8 shafts) 24 no.s
- 340 cm** : Tsudokama ZAX 9200i, Zax Neo 001 and Toyota 810 Eshed : 66 no.s

Preparatory Machinery at TTPL

- Direct Warper :**
Karl Mayer make ; 2200 mm : 3 no.s
- Sizing :**
Karl Mayer make ; 380 cm Prosize Sizing Machine : 1 no.s
- Sectional Warper :**
Prashant Make ; Lasertronic Sectional warper
WW: 2100 and 3600 mm : 2 No.s
- Sample Warper :**
Rabatex High Speed Automatic Sample Warper Ri 6001
Mini Single End Warper Model No Ri M 601
Sample Weaving Machine Model Ri 9001 Plus
Single End Sizing Machine - Ri 8001
